You've Heard a Lot about "Values"

Here's what Colorado for Family Values values:

Discrimination. Firing people, refusing housing and accommodations for *suspected* sexual orientation.

Hate Mongering. Encouraging active hatred through lie and fear.

Prejudice. Condemnation of others because of their presumed differences.

Prevarication. Lying to influence the vulnerable and the ignorant.

Distortion. Coloring the truth with discredited so-called "facts."

Scare Tactics. Misusing power to threaten retribution on those who do not agree with them.

Oppression. Removal of basic civil rights of one minority preparatory to depriving other minorities of their rights.

Theocracy. The rule of their religious organizations over the State.

Unchristian Behavior. Denying that all humankind is created through the love of God for the purpose of loving and serving God and each other.

When gay and lesbian rights are taken away in favor of this set of values, *who will suffer next*?
